

**CONFIDENTIAL**

MEMORANDUM FOR: Director of Personnel

SUBJECT : Pay of Consultants

1. On Friday, July 18, Colonel White called me for information on the practice of other agencies in adjusting rates of consultants after the new General Schedule pay rates went into effect - 13 July 1969.

2. I told him that I had checked several agencies, including AEC, NASA, FAA, and the Department of Commerce and they considered that the top rate of GS-15 was a limit on what they could pay, but that they could pay less if they wished. I said they indicated they probably would increase the rates of some consultants from \$98.88 per day (the previous GS-15 top step) to \$107.92 (the present GS-15 top step) but that it was not automatic.

3. Colonel White said it appeared to him they hadn't made up their minds. I said this was possible. I said also there were agencies (such as NASA) that could pay consultants under two authorities - \$100 per day and Public Law 600, which permitted up to the top of the Classification Act - now \$107.92. He said he didn't understand how this was possible. I said it was because they previously had legislative authority up to \$100 per day, but because they were under the Classification Act they could now pay up to \$107.92, and they expected to do so if they found it necessary.

4. Colonel White was curious as to what practice the State Department followed. I told him that I had not checked but I could do so. I said I assumed they would follow the same practice as other agencies.

5. Colonel White also wondered if other agencies followed the same practice as we do in giving a consultant a contract providing a rate at the top step of GS-15. I said it was my understanding that they used a personnel action form, the same as for other employees, on which they only showed the daily pay rate. He wondered if we couldn't do the same thing. I said I thought we probably could.

6. Colonel White seemed satisfied with this information.

**CONFIDENTIAL**

**CONFIDENTIAL**

7. On Tuesday morning, 22 July, I called the State Department to find out what pay practice they followed. They indicated that consultants who were paid at the top step of GS-15 had been adjusted to the new pay of \$107.92 per day. Thereafter I called AEC, FAA, and NASA. They indicated they were in the process of doing the same thing. AEC also indicated that they had established a new limit of \$130 per day for consultants in highly specialized scientific fields. However, the AEC is not limited by the Classification Act and can pay rates as high as necessary to attract the type of individuals they need.

8. I called Colonel White's office and left this information with his secretary. I have had no calls from him about it.

**CONFIDENTIAL**

Pay of Experts and Consultants:

Under Section 303 of the National Security Act, the Agency's authority to pay Experts and Consultants is limited to paying no more than \$50 a day, except when confidential funds are authorized. The Department of Defense, AEC, and possibly other agencies can pay up to \$100 a day.

Some two years ago, the Deputy General Counsel indicated that Section 303 of the National Security Act could be easily revised to delete the \$50 limitation, which would then bring the CIA under PL 600 which would permit pay up to the top step of GS-15 (now approximately \$68.90 per day, and after 1 January 1964, \$74 per day). No action was then considered advisable.

Recently the Administrative Officer of ONE questioned the limitation on Consultant's pay. Possibly, it is now desirable to secure the revision of Section 303 of the National Security Act.

Holiday Pay:

Recently,  questioned the Agency's authority to pay Wage Board employees time and a half plus gratuity pay (a total of  $2\frac{1}{2}$  times base pay for 8 hours) for work on holidays. On investigation, it was learned that all wage employees in the Agency were being paid this rate because of a mistake made in programming the computer. WB and LB employees are properly authorized only twice the base pay for 8 hours on a holiday and time and one-half thereafter. Action is being taken to correct this mistake.

Night Differential Pay:

The AEC has been authorized by the Comptroller General to pay night differential to employees required by the nature of their work to work between the hours of 6:00 pm and 6:00 am even though not on a regular night duty tour.

Security Guards and Chauffeurs to top officials have been paid under this decision, and certain secretaries to top officials are considered eligible.

The advice of the General Counsel is being solicited to determine if this Agency should grant night differential in situations comparable to AEC's.

Revised - Manpower Control:

The revised regulation on Manpower Control, written by the Comptroller's Office, has been reviewed and a revision and comments submitted to the Comptroller.

Manpower Control:

The Division is collaborating with the Budget Division in providing ceiling, organizational and related data on manpower to enable the Budget Division to carry out its responsibility for effective manpower control.

Pending Legislation:

HR 1159 (9 January 1963) a hazardous pay bill which would authorize the Civil Service Commission to establish Hazardous Pay Schedules limited to 25% extra was transmitted to committee. Action is possible. A similar bill was introduced last year and sponsored by Mr. John Macy, Chairman of the Civil Service Commission.

17 January 1963 - HR 2039; 21 January <sup>H.R.</sup> - 2414; 24 January <sup>H.R.</sup> - 2323: Three identical bills to provide employees promoted on or after 1 January 1962 shall be considered for salary, time in grade, promotion date, rate of compensation, etc., to have been converted as of date of Federal Salary Reform Act (14 Oct. 1962) transmitted to committee. Of particular benefit to employees promoted shortly before 14 October (pay increase to as much as \$2000). Possible action.
